CITATION
Xie J, Yang Y, Deng H, Jiang H, Hong C and Yan L (2025) Correction: A safety assessment method for substation system dynamics adapted to high penetration of distributed renewable energy sources with backward flow delivery.
Front. Energy Res. 13:1741494.
doi: 10.3389/fenrg.2025.1741494

Correction: A safety assessment method for substation system dynamics adapted to high penetration of distributed renewable energy sources with backward flow delivery

Jingdong Xie[1], Yuqi Yang[1]*, Huayu Deng[2], Haokun Jiang[1], Chen Hong[3] and Lubo Yan[1]

[1]College of Electrical Engineering, Shanghai University of Electric Power, Shanghai, China, [2]College of Mathematics and Physics, Shanghai University of Electric Power, Shanghai, China, [3]College of Economics and Management, Shanghai University of Electric Power, Shanghai, China

KEYWORDS

new power system, fault probability, adjacency matrix, distributed power supply, system dynamics mode

A Correction on
A safety assessment method for substation system dynamics adapted to high penetration of distributed renewable energy sources with backward flow delivery

by Xie Jd, Yang Y, Deng H, Jiang H, Hong C and Yan L (2025). Front. Energy Res. 13:1645357. doi: 10.3389/fenrg.2025.1645357

Affiliation College of Electrical Engineering, Shanghai University of Electric Power, Shanghai, China was omitted for author Lubo Yan. This affiliation has now been added for author Lubo Yan.

Author Lubo Yan was erroneously assigned to affiliation Shanghai University of Electric Power, Shanghai, China. This affiliation has now been removed for author Lubo Yan.

Author Jingdong Xie was erroneously spelled as Jing dong Xie.

The original article has been updated.
