KEYWORDS

canFam4, circulating leukocytes, reference transcriptome, ScRNA-seq, translational model

A Correction on

High-resolution single-cell RNA sequencing using canFam4 reveals novel immune subsets and checkpoint programs in healthy dogs

By Kim M-C, Gu T, Seo H, Moon Y, Borcherding N, Kolb R, Kim Y, Yun Y, Song W-J, Lee C-Y, Kim HJ and Zhang W (2025) *Front. Immunol.* 16:1680437. doi: 10.3389/fimmu.2025.1680437

Affiliation "Department of Biomedical Sciences, Seoul National University Graduate School, Seoul, Republic of Korea" and "Cancer Research Institute, Seoul National University College of Medicine, Seoul, Republic of Korea" were omitted for author "Hyun Je Kim". These affiliations have now been added for author "Hyun Je Kim".

There was a mistake in the **Funding** statement. An incorrect number was provided for "Basic Science Research Program through the National Research Foundation of Korea (NRF) funded by the Ministry of Education" supporting MK. The correct number is "RS-2023-00241779". An incorrect number was provided for "Bio & Medical Technology Development Program of the NRF funded by the Korean government" supporting HK. The correct number is "RS-2022-NR067309".

The original version of this article has been updated.
