KEYWORDS

hepatocellular carcinoma (HCC), disulfidptosis, glycolysis, subtype, prognostic signature, tumor microenvironment, SLCO1B1

A Correction on

Based on disulfidptosis-related glycolytic genes to construct a signature for predicting prognosis and immune infiltration analysis of hepatocellular carcinoma

By Wang Z, Chen X, Zhang J, Chen X, Peng J and Huang W (2023) *Front. Immunol.* 14:1204338. doi: 10.3389/fimmu.2023.1204338

In the published article, there was an error in Figure 11 as published. The corrected Figure 11 and its caption "Correlation of SLCO1B1 expression with the level of infiltration of various immune cells in cancers". appear below.

The authors apologize for this error and state that this does not change the scientific conclusions of the article in any way. The original article has been updated.
