KEYWORDS

low-intensity focused ultrasound, prolonged disorders of consciousness, randomized controlled trial, multi-modal measurement, rehabilitation

A Correction on
The efficacy and safety of low-intensity focused ultrasound pulses for prolonged disorders of consciousness: a study protocol for a randomized controlled trial

by Huang, Y., Yu, Q., Liu, H., Xue, C., Schnakers, C., Laureys, S., Monti, M. M., and Di, H. (2025). *Front. Neurol.* 16:1597567. doi: 10.3389/fneur.2025.1597567

The order of authors in the author list of the published paper was erroneously given as:

"Haibo Di[1,2*], Yuehong Huang[1,2,3], Qiuyi Yu[1,2], Hongxiang Liu[4], Chenxia Xue[4], Caroline Schnakers[5], Steven Laureys[6] and Martin M. Monti[7,8,9]".

The correct order of the authors appears below:

"Yuehong Huang[1,2,3], Qiuyi Yu[1,3], Hongxiang Liu[4], Chenxia Xue[4], Caroline Schnakers[5], Steven Laureys[6], Martin M. Monti[7,8,9] and Haibo Di[1,3*]".

Authors Qiuyi Yu and Haibo Di was erroneously given as affiliation [1, 2]. The correct affiliation is [1, 3].

The original version of this article has been updated.
