Correction: Case Report: Unraveling complex genomic alterations in a case of chronic lymphocytic leukemia using optical genome mapping

Leila Youssefian¹, Sahoo Trilochan² and Jia-Chi Wang^{1*}

¹Cytogenetics Laboratory, City of Hope National Medical Center, Irwindale, CA, United States,

²Bionano Laboratories, San Diego, CA, United States

KEYWORDS

fluorescence *in situ* hybridization (FISH), chronic lymphocytic leukemia (CLL), optical
genome mapping (OGM), chromothripsis and chomoplexy, complex karyotype (CK),
structural variants (SV), genome instability, cancer cytogenetics

A Correction on

Case Report: Unraveling complex genomic alterations in a case of chronic
lymphocytic leukemia using optical genome mapping

By Youssefian L, Trilochan S and Wang J-C (2025) *Front. Oncol.* 15:1639849. doi: 10.3389/
fonc.2025.1639849

The **Conflict of interest** statement was erroneously given as “Author TS was employed by the company Bionano Genomics, Inc. The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

The correct **Conflict of interest** statement is “TS was employed by the company Bionano Laboratories, San Diego. The remaining authors declare that the research was conducted in the absence of any commercial or financial relationships that could be construed as a potential conflict of interest.”

Affiliation “Bionano Laboratories, San Diego, CA, United States” was erroneously given as “Bionano Genomics, Inc., San Diego, CA, United States”.
