KEYWORDS

behavioral emergency, person in crisis, crisis intervention, functional analysis, applied behavioral analysis, crisis response, behavioral health crisis, mental health crisis

A Correction on

Beyond one-size-fits-all: managing mental health calls with the integrated Behavioral Emergency Assessment and Response (iBEAR) model

by Zaiser, B., Staller, M. S., and Koerner, S. (2025). *Front. Psychol.* 16:1585009.
doi: 10.3389/fpsyg.2025.1585009

There was a mistake in [Figure 1](#) as published. The grey text box outlining behaviors associated with “CI” was inadvertently located in the area of “BM” and vice-versa. In addition, figure one states “BM” instead of SBM, as stated in the text. The corrected [Figure 1](#), where the grey text box starting with “suicidal behaviors” is associated with “CI” and the text box starting with “instrumental suicidal behavior” is associated with “SBM”, as well as where “BM” has been substituted with “SBM”, appears below.
