KEYWORDS

mindfulness, self-report, breath counting task, cognitive control, children

A Correction on
Measuring mindfulness in children: breath counting is unrelated to self-reported mindfulness but improves after mindfulness practice in 9–13 year-olds

by Zhuang, W., Michaelson, L. E., Dimidjian, S., and Munakata, Y. (2025). *Front. Psychol.* 16:1644127. doi: 10.3389/fpsyg.2025.1644127

Affiliation "Department of Psychology and Center for Mind and Brain, University of California, Davis, Davis, CA, United States" was omitted for author Winnie Zhuang. This affiliation has now been added for author Winnie Zhuang.

In the **Acknowledgments**, this project began at the University of Colorado Boulder and support from the UC Davis Open Access Fund were erroneously omitted.

The original version of this article has been updated.
