A Correction on

[Editorial: Global health and warfare: assessing the broad impacts of conflict on public health](#)

by Orlando, S., Vineis, P., and Fateh-Moghadam, P. (2025). *Front. Public Health* 13:1690317.
doi: 10.3389/fpubh.2025.1690317

A correction has been made to the section Introduction, 1st paragraph.

In the published article, there was a mistake in the Introduction. The following sentence read “According to the World Health Organization, ~90% of conflict-related casualties since World War II have been among civilians, highlighting the disproportionate toll that modern conflicts exact on noncombatants (1).” The correct sentence is “According to the World Health Organization, ~60% of conflict-related casualties since World War II have been among civilians, highlighting the disproportionate toll that modern conflicts exact on noncombatants (1).”

The original version of this article has been updated.
